The Honorable Jocelyn G. Boyd
Chief Clerk / Executive Director
Public Service Commission of South Carolina
101 Executive Center Drive, Suite 100
Columbia, South Carolina 29210

RE: Dominion Energy South Carolina, Inc.
Notice of New Natural Gas Construction Project

Dear Ms. Boyd:

Dominion Energy South Carolina, Inc. ("DESC" or "Company") is required to notify the Public Service Commission of South Carolina ("Commission") and the South Carolina Office of Regulatory Staff ("ORS") of natural gas construction projects with costs of \$500,000 or more. See S.C. Code Ann. Reg. 103-412.2.7(A). In compliance with the regulation, this letter serves as notification to the Commission that DESC hereby notified the Commission of the following project for which the total cost of construction is anticipated to exceed \$500,000:

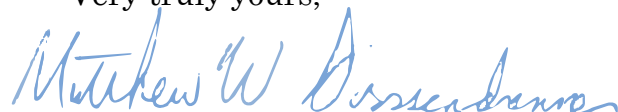

1. DESC plans to conduct short pipeline replacements in 10+ locations along an 8-inch transmission steel natural gas pipeline near Johnsonville in Florence County. The replacements are repairs that were identified through pipeline integrity evaluations. DESC will begin construction in March 2022.
2. As part of its natural gas utility privatization agreement with the Defense Logistics Agency, DESC plans to install approximately 16,000 feet of 8-inch medium density polyethylene (MDPE) natural gas pipeline within the cantonment area of Fort Jackson. DESC anticipates that construction will begin in Fall 2022.
3. DESC plans to install approximately 21,000 feet of 6-inch plastic natural gas pipeline to serve residential and commercial developments in the Red Bank area. The new 6-inch plastic gas main will be installed within South Carolina Department of Transportation ("SCDOT") rights of way along Edmund Highway (SC-302), starting at the intersection of South Lake Drive (SC-6) and Edmund Highway (SC-302), and terminating at the intersection of Jim Spence Road and Edmund Highway (SC-302). DESC anticipates that construction will begin in Spring 2022.

4. DESC plans to install approximately 8,000 feet of 8-inch plastic natural gas pipeline to serve residential and commercial developments in the Conway area. The new 8-inch plastic gas main will be installed within SCDOT rights of way along Four Mile Road, starting at the intersection of Country Manor Drive and Four Mile Road, and terminating at the intersection of Oak Street and Four Mile Road. DESC anticipates that construction will begin in July 2022.
5. DESC plans to install approximately 13,000 feet of 8-inch plastic natural gas pipeline to serve residential and commercial developments in the Myrtle Beach area. The new 8-inch plastic gas main will be installed within SCDOT rights of way along Myrtle Ridge Road, starting at the intersection of Highway 501 and Myrtle Ridge Road, and terminating at the intersection of Myrtle Ridge Road and Highway 544. DESC anticipates that construction will begin in May 2022.
6. DESC plans to install approximately 14,000 feet of 8-inch plastic natural gas pipeline to serve residential and commercial developments in the Conway area. The new 8-inch plastic gas main will be installed within SCDOT rights of way along Highway 501 and Four Mile Road, starting at the intersection of Highway 501 and Persimmon Road, and terminating at the intersection of Four Mile Road and Country Manor Drive. DESC anticipates that construction will begin in Spring 2022.
7. DESC plans to install approximately 13,900 feet of 8-inch steel natural gas pipeline and two regulator stations adjacent to the existing easement along Rhame Road and Clemson Road in Columbia, South Carolina. This project will provide increased capacity and reliability to residential, commercial, and industrial customers in the growing Northeast Columbia area. DESC anticipates that construction will begin in September 2022.

By copy of this letter, we are also notifying ORS of the Company's planned construction projects.

If you have any questions, please do not hesitate to contact me.

Very truly yours,

Matthew W. Gissendanner
